

NEW WITNESS FOUND  
IN DURRANT'S CASE

## MRS. LEAL HAS VERY IMPORTANT EVIDENCE.

She Saw the Defendant and the Murdered Girl Enter the Church The Night the Horrible Crime Was Committed—Officer Prevents a Lynching—Criminal News.

San Francisco, Aug. 16.—The police have located a new witness in the Durrant trial. She is Mrs. Leal, who lives opposite the Emanuel church, and says she saw Durrant and Miss Lamont enter the church on the afternoon of April 3.

Valparaiso, Ind., Aug. 16.—Chesterton was thrown in a state of great excitement yesterday morning over the cowardly murder of Will Tratebas, aged 19, son of a prominent farmer residing near that village, by Alonzo Powers, aged 24.

For several months there has been bad feeling between the two young men and they have come to blows on several occasions. Powers resides with his grandmother, Mrs. Mary Powers, a widow who owns considerable property. Tratebas is also a relative of Mrs. Powers. Powers has openly stated that the Tratebas would never get any part of the property, and, if necessary, he would see that they occupy space in the graveyard.

Yesterday morning about 8 o'clock Powers stepped into Trudell's blacksmith shop and had a few words with Tratebas. They clinched, but were separated by Trudell. As Powers started for the door he pulled out a revolver and shot Tratebas twice, killing him instantly.

Powers was shortly afterward arrested. Word was sent to Sheriff Stoddard. Deputy Sheriff Green was sent to the scene of the tragedy, and upon his arrival a mob of nearly five hundred were congregated around the building.

Green took his prisoner through the back entrance and got into a buggy when discovered by the mob. He started through the woods and his horses were lashed to their utmost running power. Some of the mob followed for nearly two miles, but were soon distanced, though part were mounted and in wagons. But for the timely arrival of Green Powers would have been lynched.

At night word was received here that another mob was forming to come here to lynch Powers, and extra guards were placed around the county jail.

## A Murderer Lynched.

St. Louis, Mo., Aug. 16.—Emmett Divers, the negro who killed Mrs. Cain, near Fulton, Mo., a couple of weeks ago and was brought here for safe-keeping, was taken from the sheriff at Fulton about 1 o'clock yesterday by a mob and hanged to a railroad bridge. Divers was taken from here yesterday afternoon by Deputy Sheriff Buchanan of Callaway county and arrived at Fulton some time after midnight.

The officers with Divers in charge were met by the mob at Caldwell, nine miles east of Fulton. The mob was on the lookout, having every road leading to Fulton strongly guarded. It was about 1 o'clock when the officers with the negro reached the point where the mob was located. They were so quickly surrounded that resistance was useless and before a word could be spoken the murderer was in the hands of the men, who went about their work like drilled soldiers.

A rope was promptly produced and in less than time it takes to write it was around the neck of the trembling brute, the prisoner was hurried to the Caldwell bridge, the rope securely fastened to a beam, and the next instant the body of Emmett Divers was dangling in the air. The whole country was aroused and it would have been possible to have prevented summary punishment being meted out. Caldwell is the locality where the mob principally came from that killed Sheriff Laws and Deputy Sheriff Dundon and hanged a horse thief twenty-two years ago.

## Murder of Morrissey.

St. Louis, Aug. 16.—Early in last May State Senator Peter Morrissey of this city was shot and killed in the house of Maud Lewis, said to be the senator's mistress, and the Lewis woman was indicted for the murder. He wants to be arrested and have Maud released, but the authorities have taken no action in the case yet.

## CHOLERA IN JAPAN.

## Soldiers Returning from China Are the Principal Victims.

Victoria, B. C., Aug. 16.—Although passengers arriving by the oriental liners that have reached Victoria this week agree in the statement that cholera is working frightful havoc in Japan, the newspapers of that country contain no reference to the devastation of the plague.

This is probably due to the fact that the disease finds its victims chiefly among soldiers recently returned from the front, and the government therefore takes advantage of the law relating to the press censorship to its full extent. According to officers of the Victoria and the more recently arrived Empress of Japan the military have suffered a loss of thousands during the past few months and the principal stations in Japan are at present converted into great hospitals. The Formosa expedition has proved especially disastrous.

## "Hand in Hand for Right."

Gravesend, Aug. 15.—Ex-Mayor Arnold gave a luncheon yesterday to Admiral Kirkland and the officers of the United States cruisers San Francisco and Marblehead. ## MEXICO IS AROUSED.

## Active Campaign to Be Undertaken Against Indians.

Merida, Yucatan, Aug. 16.—There is great enthusiasm here over the intention President Diaz has announced from the City of Mexico to occupy Bacalar with a strong force of troops. Santa Cruz Indians are filled with dismay because they now realize that their depredations are to be severely punished. Many of those Indians are fleeing to Belliz to accept British hospitality among people who for many years have been furnishing them arms and ammunition with which to shoot Mexicans. Ten thousand Yucatanians now employed in cutting dye woods in Honduras will return to take up arms at Bacalar directly the troops succeed in dislodging the hostile Indians now there.

## American Cattle in Favor.

Washington, Aug. 16.—Saxuel Degen, a cattle shipper of Chicago who recently sailed for England with 308 fat cattle, has returned here and reports that not a single one was lost on the trip. When the cattle arrived in England they were in a little better condition than when shipped, averaging about 1,360 pounds. The cattle were, as a rule, well graded. The Polled Angus grades brought the highest price. The whole 308 averaged about \$97 a head. It is said at the agricultural department that the Polled Angus grades are more in demand in Europe than any other cattle. Hereafter come next and Durhams last.

## New Twenty-four Hour Record.

Cleveland, O., Aug. 16.—Louis Gimm, the crack long distance bicycle rider of this city, who started at noon Wednesday at the Cleveland Driving Park to beat the twenty-four-hour record, ended his task at 12 o'clock yesterday and smashed the American record. Gimm made 453 miles and 1,700 yards, and rode the last ten miles in better than a 2:30 clip, running away from his pacemakers. Although he took little rest, he seemed as fresh when he finished as when he started. The American long-distance championship was previously held by W. B. Twyman of Chicago with a record of 407 miles and 84 yards.

## Rain Helps Kansas Crops.

Kansas City, Mo., Aug. 16.—Heavy rainstorms prevailed over Eastern and Central Kansas Wednesday night and yesterday. Altogether an average of from 4 to 6 inches of water has fallen in those sections within the past week. Corn is in splendid condition, and with the exception of a narrow strip across the county north and south the crop will even exceed the enormous estimates heretofore made. Hundreds of acres of corn were planted on wheat ground about the first of July for fodder, and the farmers are now expecting to gather a good crop from it.

## Holmes to Be Tried in Chicago.

Philadelphia, Pa., Aug. 16.—It has practically been decided that H. H. Holmes, the alleged murderer of Minnie and Nannie Williams, B. F. Pitzel, and half a dozen others, will go to Chicago for trial for the murder of the Williams' girls. This, it is said, was the outcome of a lengthy conference held in this city yesterday between W. A. Capps of Fort Worth, Texas, and District Attorney Graham. After the conference Lawyer Capps said that he had urged the district attorney to allow Holmes to go to Chicago, and that Mr. Graham could hardly refuse to grant his request.

## WANTS INDEPENDENCE.

## Annexation to the United States Not the Aim of the Cubans.

New York, Aug. 16.—A Cuban who represents the best element of the island said yesterday, "We want only our independence; we are not aiming for annexation to the United States or any other country. The native Cubans represent the brains and intelligence of the island. We have spent millions of treasure already in our fight for freedom, and we are ready to give up our lives in this fight against Spain. We do not desire to be part of any nation. We want our own flag, our own nationality. The assertion made by a man who calls himself a Cuban that the negroes outnumber the whites in Cuba, and that therefore annexation to the United States or the protection of this country is necessary to prevent the blacks dominating the government, has not related the facts. The relative numbers of Cubans and negroes in the population are 1,300,000 to 400,000, so that it is absurd to suppose that the blacks, who are docile anyway, could get the upper hand. We love the United States as a friend, and we know that we shall have the protection of her great flag for our little one when we are free, without asking for it, because the American flag is the friend of all the American republics. We shall be one of them."

## DEMOCRATS ADJOURN.

## Address to the Party Issued by Silver Leaders.

Washington, Aug. 17.—The conference of free silver democrats concluded its session yesterday afternoon. The address and plan of organization was adopted without discussion. It says in part:

The federal constitution names silver and gold together as the money metal of the United States. The first coinage law passed by congress under the constitution made the silver dollar the unit of value and admitted gold to free coinage at a measure measured by the silver dollar unit. The act of 1873 demonetized silver was surreptitiously passed without the approval or knowledge of the American people, and from the time when the effect of this act in fastening upon this country the single gold standard was understood the democratic party has consistently and persistently urged that the grievous wrong be righted. Failure to accomplish this object has resulted in the steady appreciation of gold and a corresponding fall in the price of commodities produced by the people. The rights of the American people, the interests of American labor, and the prosperity of American industry have a higher claim to the consideration of the people's lawmakers than the greed of foreign creditors or the avaricious demands made by "idle holders of idle capital." The right to regulate its own monetary system in the interests of its own people is a right which no free government can barter, sell or surrender.

"The land and its products are the basis of all development and prosperity. The productive capacity of a country must be a basis of its credit. In opposing the policy of contraction which must inevitably further depreciate the value of land and its products, we are the supporters of property rights and sound credit, and stand between the homes and estates of the people and the red flag of the auctioneer." The following was adopted as the sense of the convention: "Resolved, That the democratic party in national convention assembled should demand the free and unlimited coinage of silver and gold into primary or redemption money at the ratio of 16 to 1, without waiting for the action or approval of any other nation."

The plan of organization is practically as has been outlined in previous dispatches. It says: "There shall be a national committee of democrats who are in favor of both silver and gold as the money of the constitution, which shall be composed of one democrat from each state and territory and the District of Columbia, and the executive committee hereinafter provided for. That said national committee shall have full control and direction of the patriotic effort of the bimetallic democracy of the nation to secure in the next national democratic convention the maintenance of the time-honored principles and policies of the democratic party and when the national committee herein provided for is not in session the executive committee shall have all the authority and discharge all the duties hereby conferred upon the national committee."

The executive committee held a meeting immediately after the conference closed, but adjourned without selecting members of the national committee as authorized by the conference. It was announced to be the purpose of the committee to organize the national committee at the earliest practical date, but it was thought best to defer action until suggestions could be received from states which were not represented at the conference. The executive committee will reconvene at the call of the chairman.

The last plank is as follows: "We condemn the partisan management of the oyster police force of this state, and we hereby denounce every effort to deprive the people of their independent right to the public oyster beds, and we announce our unalterable opposition to the leasing or selling of the same."

## DENIAL FROM RANSOM.

## United States Minister Has Not Criticized the Mexican Government.

Raleigh, N. C., Aug. 16.—Matt. W. Ransom, United States minister to Mexico, said today that he expected to be well enough to return to his post of duty in about two weeks. The minister expressed the greatest regret that the report of an alleged criticism by him of the Mexican government had ever had any existence. In speaking of Mexico he had invariably expressed a very high opinion of its present administration, of the president and his cabinet.

"I have the sincerest admiration," he continued, "for President Diaz and have cherished a warm friendship for Minister Mareschal, who has been most considerate to me in every way during my stay in Mexico. I have never uttered a word which I conceived could be construed in derogation of any official in Mexico. I feel it to be my duty to my government to cultivate the most friendly relations with Mexico and her people, and it would have been a serious error for me to have said or done anything that would disturb the confidence between the two governments."

**EVANSVILLE SEMINARY STRONG.**  
Best Teaching Force That Has Ever Been Enrolled on Its Books.

Evanville, Aug. 16.—Many are asking: "Where shall we send our son, and where shall we send our daughter to school?" A few words regarding Evansville seminary will be timely. This institution is to have the most able corps of teachers this coming school year in its history. The principal, Rev. A. L. Whitcomb, is a man of strict integrity and sterling worth, and no parent need fear for son or daughter entrusted in his care. The fall term begins September 3. This is a school of which our country may justly feel proud, and in a town that has never granted license.

**EZRA GOODRICH AND MRS. HINES**  
Milton Man Explains the Circumstances of the Garnishee—Tale of Trouble.

"Goodrich after his client's cash." As with stories in general there are two sides to this, and as the public were treated to one side we have given them the other.

Mrs. Hines of Janesville a stranger to us, wrote us several letters asking us to act as her counsel in trying to recover a part of what she thought exorbitant fees, to wit, \$100, out of her \$300, alimony, retained for procuring an uncontested divorce.

We are not a lawyer and never sought a case, and we reluctantly consented to act against able attorneys acting in their own defense.

We brought the case before a jury and they illustrated the axiom that God only knows what a jury may do. The defense had four able lawyers and they showed that the fee charged for a half hour's services, in court, in a case of this kind, was uncommonly reasonable; that \$800 was an ordinary fee for a Janesville woman to pay, especially if the money came out of her husband's pocket; and, that testimony on the question of fees could only be fixed by experts, clients not being in it.

We knew of Rock county courts allowing \$10,000 attorneys' fees, with \$2,500 for second counsel, where a party had gone over the river, and we advised Mrs. Hines to pay the costs and let the case drop. She paid the costs, and we gave her our fees as we paid the poor woman. She still felt she was wronged and she listened to other counsel paying them \$10 to take her case through the circuit court. When the case came up there the papers were wrong and her counsel wanted \$2 more to get them righted. Mrs. Hines again felt her counsel was asking too much of her and she refused and he let the case go by default and allowed a judgment of \$240 for costs, entered against her and her surety.

Mrs. Hines had nothing to pay with and as her bondsman had become surety at our request we would not allow him to suffer so we settled the matter, they kindly compromising with us. This we supposed was the end of it. We were in court in behalf of another client when her judgment was rendered against Mr. Hines, and after dreaming over night, we concluded to garnishee him. We found him in the office of her attorney, Wilson Lane, to whom he had paid ten dollars in cash, and given an order for the balance, which Lane said he had not accepted. If this was true, we judged Hines still owed the balance, and we garnisheed him on the spot. Whether we were too late, the court and not Mr. Lane, The Gazette or Goodrich will decide. As regards Mrs. Hines, the poor woman is entitled to sympathy, for we men in the end were all "after her cash."

**EZRA GOODRICH.**

Mrs. Hines shows receipts for the payment of Milton costs and insists that she has paid everything for which she is responsible.

## SEVENTY HAD FUN UNDER THE TREES

PICNIC GIVEN BY MR. AND MRS. S. B. SMITH.

Cake Walk Proves a Winning Card and the Dancing Floor Is Thronged By Light-Footed Young People—Supper Tables Spread Under the Trees.

Give every tree at Crystal Springs a tongue. Let every tongue wag.

Even then, it would take most of the summer to tell how much fun folks had at Mr. and Mrs. Stanley B. Smith's picnic.

They went up on the Columbia—seventy of them—and 6 o'clock saw them in the woods. Smith's orchestra was in the pavilion, giving forth strains so enticing that nobody with the foot of a dancer could resist.

A few stayed behind to open lunch baskets and spread a long supper table on the lawn and the rest kept time to waltzes and two steps with the laudable intention of encouraging their appetites. Supper was served about seven. After that there was more dancing and strolls along the river bank, and there were the other manifold enticements that picnics afford.

A cake walk by six couples renowned for dalsartean skill and so sharp was the competition that the judges, M. G. Jeffris, Mrs. B. F. Dunwiddie and Miss E. L. Williams—were unable to decide.

The affair was in honor of Mrs. Smith's guest, Miss Grace Turner, of Lutherville, Md. These present were:

The Sheboygan meeting was a great success in every way.

**F. C. HASELTON'S ARM BROKEN**  
Popular Insurance Man Painfully Hurt while Doing the "Giant Swing."

F. C. Haselton, the well known insurance man, attempted to do the giant swing at Crystal Springs park at 7 o'clock last evening, and as the result he is nursing a broken arm. Mr. Haselton attempted the feat after several others had been performing on the horizontal bar, and his hands being heavily to the ground, striking in such a way as to break both bones of his left arm. The fracture was so close to the wrist joint that his wrist may be stiffened, although it is hoped to overcome that danger. Dr. E. F. Woods dressed the injury.

**BRIEF BITS OF LOCAL.**

The sale on summer clothing we have inaugurated this week does not include old self worn stock but this year's patterns and styles. We have some very pretty suits in the lot and were it any other time but the close of the summer season, could not afford to put the cost mark on every suit. We need room badly and the push we give the goods will vacate the space. Frank H. Baack.

We have a large assortment left and our prices are cut in two. You can buy them all at half price. Take comfort come in and try a pair. You can buy a good tan shoe for \$1.50. Brown Bros. & Lincoln.

It Always Pays to Get the Best.

This dry weather loosens the tire on many a buggy wheel, especially those poorly constructed. There is a point few people look well to; a cheaply made buggy will give out in the wheel much quicker than one better put up, and then the trouble and expense begins. Why not get the best from the start. The Henney stands well and its wearing qualities are easily proven the best. F. A. Taylor.

## COMPANY A SHOOTS AS WELL AS EVER

C. H. GAGE GETS A PLACE ON THE REGIMENTAL TEAM.

Captain Gibson Brings Back a Distinguished Marksman Medal—General King the Strictest Commander the Regiment Has Ever Known and Boys Chafe Under Restraint.

Camp Douglass Aug. 16.—Company A gets one man on the regimental rifle team—Private Gage. He stands third by a score of 429.

Capt. Gibson will bring home a "distinguished marksman" medal. He led the regiment yesterday, his score at fixed distances being 168. The three highest scores were:

| Gage    | Fixed | Dis- | Skr- | To-  |
|---------|-------|------|------|------|
|         | tance | ance | ish. | tal. |
| Gage    | 168   | 61   | 22   |      |
| Hansen  | 152   | 63   | 205  |      |
| Randall | 149   | 55   | 179  |      |

Private Cook's shoulder got so sore that he was unable to finish his scores. The officers have been practicing pistol firing on the range.

Private E. E. Egan has been dubbed the captain of the Mulligan Guards. The company live high. This is a sample dinner bill of fare: Bread, chicken, potatoes, cheese, pie, rice pudding, watermelon and Shurtleff's ice cream.

Officer of the day, Captain Glass, had a darkey arrested for running a crap game in Co. F's quarters, but released him after a short imprisonment in the guard house.

General King has so far proved to be the strictest commander the militia have ever had and the boys are "sore" on him for that reason.

Ed. Miller tried to plow a furrow through the company's street last evening, in an exhibition of tumbling. Major "Deck" Cullen gave an exhibition with his baton and received much applause.

Sergeant Bloedell told one of the men not to tell him when he was caught writing to his girl.

Last evening was a pleasant one. The bands gave concerts and a reception and dance was given the United States army officers in the new club house.

Reuben Glue has arrived from Scipio, York state. The governor will arrive in camp today and regulars and militiamen will give a sham battle.

He says the machine will readily set 50,000 letters an hour and do the work of at least 20 hand compositors and double the work of any typesetting machine now in use. The priest's invention has 18 keyboards, each of which has 30 keys, and besides these there are 35 other keys representing numerals, punctuation marks, etc.

## NOTICE

Johann Hoff has a suit pending against Tarrant & Co., to enjoin them from using the words "Hoff's Malt Extract" for an Extract bottled in their cellars in New York City.

## "What a Lovely Complexion!"

"Isn't her complexion charming!" These are expressions we hear every day, made by women in reference to others, which reveal a pardonable envy, and one which can be gratified.

The secret of good health, as indicated by a rich color, and well-rounded figure, is found in a good digestion.

Shopping tours, dances and entertainments indulged in, will leave you utterly fagged out, unless you are obtaining all the value from your food; and it is so easy to accomplish.

Try this that you will wonder no one has spoken to you of it before. Try with each meal, and at bed-time, a wineglassful or more of the Genuine Johann Hoff's Malt Extract, which you will find to be most acceptable to the palate as a beverage, and will lift you right on to the plane of the vivacious and trim-figured sister you admire so much, and who seems capable of enduring endless fatigue.

Then, again, we must remember the nursing mother, where two lives are dependent upon the proper nourishing of the one. Surely nothing can be more valuable to the mother, nor give more comfort to the baby, by producing a generous flow of milk, than the

## GENUINE JOHANN HOFF'S MALT EXTRACT.

Defective nutrition is the foundation of all ailments.

A healthy, well-nourished body can withstand almost any disease. There is resistance power in such a body.

I have been taking the Genuine Johann Hoff's Malt Extract myself for a year or so, and find it an excellent tonic and appetizer. Without doubt it is the best Malt Extract in the market.

WHITNEY NEEDN'T FEAR

Mr. Whitney needn't worry about President Cleveland's proving a "bulwark against republican extravagance." There will be no extravagance of any kind for some time to come. There is nothing to be extravagant with. Governmental income steadily falls short of outgo. The surpluses promised by the treasury officials always turn out to be deficits. The present expenditures, which were authorized by a democratic congress, and which, presumably, are at as low a line as they could be put, unless some of the government's functions were suspended, are unable to get down far enough to meet the receipts. Three times since the present administration came into power the government has been compelled to borrow money to meet its current obligations. This is the first time since the war debt was put in manageable shape by the republicans a quarter of a century ago, that the government has had to borrow money to pay its running expenses. There is a chance, too, that more borrowing will have to be done before the present congress gets fairly at work.

Republicans will not have a chance to be very extravagant until they have changed some big democratic deficits into surpluses and put the nation's finances on a sound basis.

WHY NOT BE HONEST?

The Jim Hill plan for re-organizing and consolidating the Northern Pacific and Great Northern railroads is positively off and new plans are being prepared. Of course there is no chance of anything so commonplace, but it seems as if some one might take these wrecked concerns, wring out the water by foreclosure, reorganize them on an actual value basis and operate them on business principles. Any other kind of reorganization simply defers the day of reckoning and entails upon the next generation all the consequences of the credit mobliler stock jobbing, stock watering and overbonding of our own day.

WOMEN AND WHEELS.

Needn't worry about the woman on the wheel. She will derive nothing but benefit from her exercise, and the benefit will be lasting. One medical writer calls attention particularly to the fact that women are not by nature weaker than man, but that they dress with such disregard of natural laws that their strength is impaired, and the bicycle forces them to correct this fault by adopting a costume that is calculated to promote health and general vigor.

CITIZENS INTERESTED.

Philadelphia placed its popular loan of \$1,200,000 at 3 per cent in a few days and was offered more money than it wanted. The city paid no commission or other incidental expenses. The subscriptions were almost entirely from its own citizens and in small sums. If all the bonded debt of a city were owned by the mass of its inhabitants, more interest would be taken in securing economical and capable municipal rule.

Improved roads leading out of Janesville into the country for five miles would be the best investment the city could make. They would double Janesville's circle of trade and put money in the pocket of every merchant. Now that a modern road machine has been provided why not have cooperation with surrounding towns for the creation of a system of serviceable roadways?

A number of democrats may aspire to gubernatorial nominations this year and next who have been barred heretofore. None of the democratic nominees this time will need to possess qualifications for making inaugural addresses.

This country is deeply indebted to the Scotch for just such festivals as that of today. Nowhere is the gos-

pel of fresh air and outdoor exercise preached more effectively. It is unfortunate that America needs lessons along this line but as long as she does no race is more fitted to be her teacher than the one whose muscles have been hardened by treading Scotch heather.

While discussing the bloomers worn by women, don't lose sight of the knee pants worn by men. This is an era of dress reform for both sexes.

HUNTINGTON'S NEW ROAD.

Work Being Rapidly Pushed on the Guatemala Line Extensions.

San Francisco, Aug. 16.—Ricardo H. F. von Winckler, who is superintending the construction of C. P. Huntington's new railway lines in Guatemala, arrived in this city on the steamship Colon. He says Mr. Huntington is putting a great deal of money into the new road and that it is rapidly developing into an immensely valuable property, as it is pushed through the heart of the richest coffee and cane sections of Guatemala. Six hundred men are now working on the road. The line is completed from a point on the Guatemala Central Road, nine miles below Escuintla, Los Anta Lucia, and is now building to Papulun, with prospects that it will be extended through the mountains to Metzatenago as rapidly as the work can be pushed.

French Soldiers Die of Malaria.

Port Luis, Island of Mauritius, Aug. 16.—Advice received here from Majunga, island of Madagascar, dated Aug. 5, say that the Hovas were then entrenched at Kinajy, on the Ambohimena mountains, between Andriba and Antananarivo. General Duchesne was advancing upon this position and another Hova force, consisting of 4,000 men, was pushing forward with the intention of cutting off the French supplies near Marovoay. There has been heavy mortality among the French troops on account of malaria.

Corbett Marries Again.

New York, Aug. 16.—Allen, the Corbett cottage, at Seventh and Emery streets, Asbury Park, was the scene of a quiet wedding yesterday when Pugilist James J. Corbett was married to Miss Jessie Taylor of Omaha, Neb. The bride is known by the name of Vera Stanwood.

Kills Her Husband and Herself.

Evansville, Ind., Aug. 16.—As the result of family quarrels Mrs. William Browning at a late hour last night shot her husband in the face and then blew out her brains. Browning was mortally wounded, dying some time later.

Chattanooga, Tenn., Aug. 16.—Great damage was done by a storm at Chickamauga park yesterday afternoon. The wind blew at a regular cyclone rate. Some of the finest trees in the park were ruined. A heavy rain accompanied the wind, followed by hail, which made the air turn bitterly cold. The park was full of visitors at the time, who could find no shelter and suffered a great deal from the wet and extraordinary coldness.

NO CUT IN COAL RATES HERE

Freight to Janesville Double What It Is to Fox River Points.

Janesville gets no benefit from the freight war that is cutting coal rates between Milwaukee and Fox River points. The rate from Milwaukee to Oshkosh, Fond du Lac, Neenah, Appleton, Kaukauna and all Fox river points has been reduced from one dollar to sixty five cents per ton, to take immediate effect. Milwaukee dealers are consequently shipping coal to those points just thirty-five cents lower per ton today than they could ship it early in the week. It is understood that the Chicago & Northwestern and the Wisconsin Central allege that the St. Paul company has been trimming down rate from southern points to the Fox river district, and in retaliation they at once cut the regular rate nearly in two.

Janesville dealers do not look for a cut in this direction. J. H. Gateley paid \$1.20 a ton on a shipment received from Milwaukee today, and paid \$1.30 on a shipment delivered in Orfordville.

L.O. HALVERSON MADE A GOOD ROAD

John O'Maley's Complaint In Regard to the Job Not Well Taken.

L. O. Halverson made a good road by John O'Maley's Johnstown farm when he handled the scraper some time ago, although at the time, opinions differed. O'Maley didn't think so, and hired Attorney William Smith to conduct a law suit for him. Halverson insisted that he had done a good job and retained Attorney John J. Cunningham of the firm of Mahoney & Cunningham to defend him. The case was tried before Acting Municipal Judge Prishard early in the week, and today the court announced that he found that O'Maley had no cause of action and that Halverson have and recover from O'Maley \$62.30, his costs as taxed. The suit was a rather expensive one as there were twenty witnesses in the case.

Saturday Should Be Cooler.

Forecast: Partly cloudy; probably showers. Cooler by Saturday night.

A COMMON CAUSE OF SICKNESS.

IN WARM WEATHER NOTHING SO DANGEROUS AS DECAYED FOODS.

Every one knows or ought to know that decayed foods are poisonous. Boards of Health seek to prevent their sale.

We now have in mind the results which follow the decay and decomposition of foods after they have been eaten, for unless digestion occurs within a reasonable time after our meals, decomposition sets in.

If dyspeptics will stop and consider for a moment some of the symptoms of their trouble, such as disagreeable breath, eructations of gas or bad taste in the mouth, they will understand that they all must come from decaying foods that ought properly to have been absorbed into the system.

Spots before the eyes, dizziness, sleeplessness, dyspeptic headaches are but a few of the effects following the absorption into the blood of poisons, developed from decomposing and undigested food that lies in the stomach.

It was a recognition of this important fact that caused the Mount Lebanon Shakers to devote so much of their time to the preparation of a remedy for dyspepsia, and nothing is more efficient than the Digestive Cordial which they have recently placed on the market.

The importance of their invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach trouble. Thousands of pale, thin people have little inclination to eat, and what they do eat causes them pain and distress.

Its action is so prompt that relief frequently follows the very first dose. It restores the appetite and increases the weight. Plumpness and strength take the place of weakness and that care-worn expression which points out the dyspeptics in every community. The local druggists are now giving away interesting descriptive pamphlets.

NEW FEATURES AT THE FAIR.

Liberal Prices For Races, Athletic Contests and a Base Ball Tournament.

In addition to the prizes listed in the premium books, the Agricultural society has appropriated more money for horse racing than ever before, and there will be three or more trotting, pacing or running races each day, also exciting chariot races. Wednesday will probably be bicycle day, when a number of races will take place for liberal prizes.

\$100 in cash is offered for a base ball tournament for the championship of Rock county and there will be one or more games each day. This is expected to be one of the leading features of the fair as there are a number of first class clubs in the county which are closely matched. Considerable interest has been awakened.

Prizes will also be given for the races and games usually seen at the Caledonian Society picnic. In fact, it will be the aim of the management to furnish sport and amusement for all classes of people; one continual round of pleasure every day, commencing at 10 a. m. There will be music by the Beloit, Evansville and Janesville bands, and it looks as if, weather permitting, Janesville would have the greatest fair this year ever given by the Rock county society.

## SCOTS HAVE A DAY OF GAELIC SPORT

CALEDONIAN GAMES WERE A  
GREAT SUCCESS.

Big Crowd Saw the Tenth Annual Tournament at the Fair Grounds; Heard the Skirl of Pipes and Watched The Graceful Dancers.

This was Scotland's day. The pipes, they skirled; kilts fluted in the breeze, and Colin Campbell Maclean, well he was just the busiest man in seven separate and distinct counties.

"The Caledonian games" To be sure. Anybody could tell that from "Cousin Willie" Paul's smile. This is the one day of the year when all men hail from heathery hills where the succulent thistle is picked and the slogan is sounded.

"A crowd" Well no. That hardly expresses it. It was an outpouring.

When the St. Paul train pulled in from Brodhead a lot of people got off. "Were they all Scotch?"

Mostly. Then the train from the opposite direction came to a standstill and another delegation piled off.

"More Scotch?" Entirely. Saw the Women Fence.

By the time the games were well under way, there were 2,600 spectators. Jaguarina and Miss Jean Gordon were roundly cheered as they rode out on two of C. K. Milmore's bronchos and began slashing at one another with sabres. The contest was judged by T. W. Goldin. Jaguarina won by a score of 17 to 11.

The wrestling match was declared off because of Dr. E. D. Robert's injury.

Milton beat Edgerton in the tug of war and Christ church boys beat the Presbyterian boys in the first pull, the being a trifle heavier. The second pull was won by the Presbyterians. Milton Junction's team was beaten by Johnston.

George Wiggins and Bert Lincoln dropped out of the five-mile bicycle race and Don Van Wart finished first, in 13:30; F. Cnare, second; C. Hodson, third.

C. L. Brewer vaulted with pole 9 feet 3 in. and took first money. J. Day and R. A. Whiffen tied for second and W. J. Smart was third. Other games resulted:

Putting 14 pound stone, J. Day, (33.04 feet) A. Lynch, Milwaukee; C. L. Brewer.

200 Yard Race, boys under 16 years of age, John Joyce, R. McNeil, Phil Casford.

Throwing the Hammer, J. Day (87.05 feet) D. Bigger, R. Doolittle.

Running high jump—John Day 5 ft. 4 in., C. L. Brewer, I. S. Doolittle.

Barrel race—Charles Stackle, C. Hatten, R. Davenport.

Managers of Games—Colin C. MacLean, P. J. Mout, Andrew Scott, Peter Taylor, James Scott and Fred Vankirk.

Judges—Thomas Morgan and Hugh W. Guthrie, Milwaukee; W. R. Proudfoot, William Hadden, Alexander McGregor, William Taylor, James Shearer, Leod H. Becker, B. H. Baldwin, William Porter, George McKay and Oscar F. Nowlan.

MAKE FAIR ENTRIES EARLY

Secretary D. W. Watt Sends Out Instructions As to the Blanks.

Every effort will be made this year to have fair entries registered earlier.

Secretary D. W. Watt furnishes these instructions:

Call at the secretary's office for a premium list and entry blank, or write him and he will send you one by mail. Look the book over carefully and you will find premiums for almost everything in which men, women and children are interested. Copy on the blank each entry the same as it is in the book, giving the department and class.

Take or send this to the secretary with \$1.00 entry fee and he will forward you tags for the articles, and an exhibitor's ticket entitling you to admission twice each day. Make your entries early and avoid the rush of the last few days. The books are now open at the secretary's office and he will furnish any desired information.

HOT BALL GAMES ARRANGED

Milton and Palmyra's Play Here—Edgerton and Jefferson Tomorrow.

There will be some fast ball playing in Janesville next Friday. Athletic Park has been hired for a game between the Miltons and the Palmyras, clubs that are at swords points.

There will be a great ball game at Edgerton tomorrow between the Edgerton and Jefferson clubs. Jefferson defeated the Edgerton nine in the state fireman's tournament at Juneau some time ago and the latter club is anxious to get even. Those who saw them play at Evansville Wednesday would undoubtedly place their money that way if in a betting mood.

LOCAL LEAF MORE IN DEMAND

Alderman Heddles' Investigation of the Cause of Germany's Small Purchases

Alderman Heddles spent considerable time while abroad investigating the tobacco market. He found that American leaf had been crowded out of Germany in large measure by Brazilian goods. Another circumstance that operates against this country is the fact that foreign buyers got hold of considerable leaf a few years ago that was of clear light color but was very cheap because of being damaged by hail. Ever since then the demand has been for light colored goods at the same price—a figure too low to command anything but scrappy stock.

Local tobacco men are quietly accumulating stocks of leaf, feeling that eastern buyers must soon look this way. Haviland and Rudolph have on hand three thousand cases of tobacco, having purchased fully two thousand five hundred in this county. Mr. Rudolph who has recently returned from a trip to Germany, investigated the market there and found openings for considerable stock. In the meantime, however, Mr. Haviland had made a trip to the eastern market and found the outlook so promising that most of the firm's leaf is likely to be disposed of on this side of the water.

J. H. Haviland & Son bought 95 cases of '94 leaf this week. James Cleland sold 118 cases of '92 and S. B. Heddles bought 25 cases of '94. Samuel Grundy also bought crops of '94. Sherman & Stewart of Edgerton sold 150 cases of '93 leaf to Chicago parties this week, and W. E. Brill has been looking around Edgerton for choice '92.

The new tobacco is ripening so slowly that it is feared an early frost will catch it. Rains are much needed.

**A Cold Weather Joke.**

A business man came down to his office on a winter morning when it was bitterly cold.

"Whew! how cold it is!" he said to one of the clerks. "Just shut that safe, if you please."

The clerk obeyed, with a puzzled look. Then, when he could restrain his curiosity no longer, he asked:

"Excuse me, sir, but why did you tell me to shut the safe?"

"Why," replied his employer, with a sly chuckle, "there are a good many drafts in that safe."

**An Ape's Superstition.**

Chief Utan, the auburn-haired orang-outang at the zoo, is very superstitious and his convictions with regard to straws are not limited to the mere fact that they tell how the wind blows. The chief believes that chewing a straw with certain supernatural qualities will bring his dinner hour around before 1 o'clock, the regular time, and he daily tries to put this theory into practice. From the among the heaps of straw in his cage he selects with great care the longest and straightest, and, after having placed it in his mouth, he goes to the glass front of the cage, and, shading his eyes with his hand, peers to the right and left in search of the keeper with his dinner. If the keeper is not in sight the chief throws the straw away as not possessing sufficient "charm" and selects another. This performance is repeated over and over with the utmost gravity until the meal arrives.—Philadelphia Record.

## INVESTMENT IN GENIUS.

Patrono's Backers Want to See Wheels Go Around or Seize His Quicksilver.

Michael Patrono, says the New York Herald, has a perpetual motor. It has not developed fast enough to please his backers, who are some dozens of Italians who live in and near Newark, and who were proud at first that a compatriot had, as it seemed, solved the puzzle of inventors. They took stock in his company and dreamed of its appreciating as did Bell telephone shares, with which some of the faint-hearted once papered their walls. The company's name was "Societa Industriale Universale."

About sixty of these believers became skeptical. They met Friday night in Blanchi's Columbia hall, in Market street, Newark, and unanimously wanted to know several things—first, what had been done with \$6,000 or thereabouts for which they had been assessed without so much as getting a glimpse of the perpetual-motion machine. To this Patrono replied that drawing paper was costly, to say nothing of his time spent in preparing his papers for the patent office and guarding his secret from emissaries of monopolies, who would be glad to filch the child of his brain, which was to revolutionize all industry. He enlarged upon this point and asked for more money, for he wished to hire a room in which he could hide his machine more securely. But visions of shares at sixteen times par and dividends every month had been growing dimmer. Patriotic sympathy with the illustrious-to-be Patrono had ebbed. These unsympathetic subscribers made this cold, hard, businesslike proposition: "Show us something for our money and we'll put up more dollars."

"Then this company is insolvent?" said Patrono tentatively.

A storm of noes flattered out this proposition. Then someone proposed, and had carried, a motion that a committee be sent to Patrono's shop to carry away 500 pounds of mercury, said to be essential to the working of his motor. Patrono, protesting that the quicksilver was his own property, strode out of the hall. The shareholders decided by vote that they would continue the organization.

The committee called at Patrono's shop yesterday and demanded the mercury. Patrono urbanely invited them to leave him to his own meditations. He wrote to the society that he would not do any more inventing for it, as its members had broken their agreement. He told me that he had a revolver and would use it if anyone came after the quicksilver.

## MISS WILLARD'S ROMANCE.

The W. C. T. U. President Was Once Courtied by a Young Minister.

The recent rumor regarding the engagement of Miss Frances E. Willard, president of the National Woman's Christian Temperance Union, to an elderly English gentleman of means, who uses a large part of his annual income in the furthering of reform movements, has recalled to the minds of many of Miss Willard's friends in this country the romance of her early womanhood. Miss Willard's devotion to the temperance cause is by no means coeval with the great crusade of the early '70's, whose outcome was the organization of hundreds of Woman's Christian Temperance Unions. Miss Willard's parents were among the pioneers of the great northwest, and brought up their daughter with very strict, not to say narrow, views as to the use of liquor and tobacco. Miss Willard prepared herself for teaching, and while pursuing her studies met a young man who was studying for the ministry and who gave promise of attaining great prominence in his chosen calling. Their common love of study attracted them to each other, and the young man felt that in Miss Willard he had found the one woman who, as his wife, would help him upward and would gracefully share the honors of the lofty position at which he was aiming. Nor was Miss Willard's heart untouched, and the young man's matrimonial hopes might have been realized but for her discovery that he was addicted to the use of tobacco. She very promptly told him he could choose between tobacco and herself, and to all his pleadings opposed the one cry:

"If you love tobacco more than you do me find some other woman who will tolerate such a habit."

At length he ceased to urge her, and they went their separate ways, she to remain single and become president of the National Woman's Temperance Union, and one of the best parliamentarians in the United States, and to marry some one else and become one of the most prominent bishops of the Methodist Episcopal church.

## Thirty Cents Apiece.

It is thought that the yield of gold this year in the world will be about \$170,000,000. For the last 400 years, of all the precious metals taken out of the ground, 61 per cent has been lost or used in the arts. Figuring the product this year on the same basis, there would be about \$61,200,000 to be coined. This would give 30 cents apiece to the people of the United States, England, Germany and France, and nothing to the world outside.

## Literally Correct.

A teacher in an Aroostook, Me., school was hearing her elementary class in physiology the other day. "What's the first step toward the digestion of the food?" she asked. Up went the hand of a black-haired little fellow, who exclaimed, with eagerness: "Bite it off!"

## Cheap Sewing Machines.

Sewing machines are so cheap that a woman can cover herself from head to foot with frills and flounces and other fripperies at a cost not greater than that which was formerly required to make one plain gown.

## BEATING ANTI-GAMBLING LAW.

How the Indiana Barkeepers Utilize Flies and Cockroaches.

For months a thousand fertile minds have been busy at work attempting to devise ways and means to get around the Nicholson law, says an Indianapolis paper. Many saloon-keepers and patrons of saloons have lain awake nights figuring on how to dodge this law. A saloon-keeper in Delphi claims to have discovered a way of getting around one of the rough corners. It will be recalled that the law provides, among other things, that no games of chance shall be permitted in a saloon, which means that dice boxes and other similar devices have to go. The dice box was a great feature of the trade, and how to supply the deficiency and not violate the law was one of the questions that vexed the saloon-keeper. Flies and loaf sugar are all that is necessary to carry out the scheme of the Delphi man, and the dispensers of liquor in this city have provided themselves accordingly. The plan of operating is as follows: Say two men enter a saloon for the purpose of regaling themselves and desire to decide with the "house" which of the three shall "set 'em up." Three lumps of sugar are produced from behind the bar and a lump placed in front of the saloon-keeper and each of the others. The fellow's lump upon which a fly lights first decides that he is to pay for the drinks. The saloon men claim that this is not a game of chance in the strict sense of the word, and that the fly is the guilty party. They allege that they simply put the sugar and the fly does the rest. Heretofore all saloons have kept up screen doors and windows for the purpose of keeping out flies. They will be taken down now, and the festive fly will be made welcome. The more flies the more rapidly will business go.

One saloon-keeper in town has been detected in attempting to "cold deck" his customers. He has one loaf of sugar that he sets for himself touched with turpentine, the others being pure. The fly will never light on turpentine sugar, and he had a sure thing. In the winter time, when the flies have disappeared, the cockroach will take his place. Heretofore the cockroach has been the bane of the average saloon-keeper's life. Henceforth every encouragement will be given them to produce and multiply. The saloon-keepers are now figuring on educating flies and cockroaches.

## THE BABY ON THE FARM.

To Romp and Play with the Little Ones a Religious Duty.

Even if the baby's coming interferes with all sorts of thrifty plans to help the husband pay off the mortgage on the farm, an acute financier once gave a large sum of money to endow a college upon the ground that he considered boys a better investment than land, writes Helen Jay in the Ladies' Home Journal. In the childless home the money may come in more quickly than it goes out until the whole farm is paid for, but what does it profit if there are none of our own to enjoy it with us, and no one to receive it as a sacred inheritance when we are gone? As a class, farmers' wives identify themselves more closely with their husbands' financial interests than any other class of women. They are willing to work hard and sacrifice themselves to help to buy a home and to educate their children. They feel that if they cannot earn money they can at least save it. It becomes a problem sometimes how to steer between legitimate thrift on the one hand and unnecessary economy on the other. Sometimes a woman works so hard in trying to increase the bank account that she ruins, not only her physical health, but her disposition as well. A nervous, worn-out, fretful woman is not a fit associate, even on hygienic grounds, for a sensitive, impressionable child, who reflects the passing moods of those about him as in a looking-glass. If it is a question then of bank accounts, immaculate closets and well-filled store-rooms on the one hand, and a bright, cheerful mother on the other, I would unhesitatingly choose the latter. The children whose mothers have not time to pet them are to be pitied. To amuse the baby and to romp with it is sometimes quite as much a religious duty as to pray for it.

## A Fine Example.

The West Point military college has set a splendid example for other colleges in sentencing Cadet Wallace B. Scales to two years of punishment in hazing Cadet Roberts, a "plebe," until the latter fainted. Unfortunately the law does not allow college faculties to impose a sentence of punishment, technically speaking, upon refractory students, except in such institutions as those at West Point and Annapolis; but it lies within the power of colleges of all kinds to expel students for hazing. If every college in the land would take a firm stand in this matter and adhere rigidly to the rule it would not be long before hazing would be an institution of the past in this country.—Troy Press.

## Shields of Silk.

It appears that the comparatively few losses to the Japanese troops in the Manchurian engagements in the recent war with China were not altogether due to the bad marksmanship of the Chinese. As a means of protection against the cold the Japanese wore a quantity of floss silk under their outer clothing, and this acted more or less as a bullet-proof shield.
